

## Legend ML160HG

**IGBT**  
The latest IGBT inverter technology guarantees the best welding performance.

**DC**  
Constant DC power output.

**Thermal protection**  
Prevents overheating of the welding machine.

**Anti-stick**  
The anti-stick function ensures that electrodes do not stick and weld easily.

**Hot start**  
The hot start ensures a high start-up voltage so that all types of welding electrodes ignite easily.

**A stepless**  
Infinitely adjustable Ampere to an accuracy of 1 ampere.

**V stepless**  
Infinitely adjustable voltage.

**1Phase**  
1 phase 230V input.

**ARC FORCE**  
With the ARC FORCE, welding depths can be easily set during electrode welding.

**Arc Welding**  
Welding machine can also ARC weld (electrode welding).

**LIFT TIG**  
TIG ignition as soon as the torch is lifted from the material.

**Spot Welding**  
Spot welding mode with various spot welding settings.

**Flux**  
Reverse polarity is possible so that powder-filled wire can be welded gas-shieldedly.

**Single Wire Feed**  
Single roll wire feed.

**Aluminum Wire Feed**  
equipped with solid aluminum wire feed.

**Digital**  
Digital display.

**2T/4T**  
2T: Press 1x for on. Release for off.  
4T: Press and release 1x for on. Press again and release for off.
