

Legend TL200ACHG

IGBT
The latest IGBT inverter technology guarantees the best welding performance.

DC
Constant DC power output.

Thermal protection
Prevents overheating of the welding machine.

Anti-stick
The anti-stick function ensures that electrodes do not stick and weld easily.

Hot start
The hot start ensures a high start-up voltage so that all types of welding electrodes ignite easily.

A stepless
Infinitely adjustable Ampere to an accuracy of 1 ampere.

V stepless
Infinitely adjustable voltage.

1Phase
1 phase 230V input.

ARC FORCE
With the ARC FORCE, welding depths can be easily set during electrode welding.

Arc Welding
Welding machine can also ARC weld (electrode welding).

LIFT TIG
TIG ignition as soon as the torch is lifted from the material.

Pulse
Pulse welding possible.

Post Gas
Adjustable gas flow time.

HF Ignition
High frequency ignition; ignition without touching the material.

Torch Control
Additional control option on the welding torch.

Digital
Digital display.

AC/DC
AC/DC welding may be ideal for aluminum alloys.

2T/4T
2T: Press 1x for on. Release for off.
4T: Press and release 1x for on. Press again and release for off.
